

Phoenix ADAS Mobile Packages (A,B &C)

Built for Precision and Maximum Coverage

The Phoenix ADAS Mobile is a versatile, foldable calibration frame built for both passive and active ADAS systems. It takes less than 30 minutes to set up, allowing technicians to perform calibration anywhere. Compatible with any of TOPDON's Phoenix Scanners, it empowers professionals to work on more modern vehicles with ease and precision.

Features

Specs

• Totally Mobile

The Phoenix ADAS Mobile features a collapsible design for convenience, easy storage, and unmatched portability. With foldable arms, detachable lifter and base, you can easily put away this fully collapsible tool.

• Quick Set-Up

With this tool, professionals can calibrate ADAS systems from an auto shop, a parking lot, or even at a client's driveway. Its unmatched portability and convenience makes your business more productive and profitable.

• Unmatched Precision

The high-precision 5-line laser and the cross-line laser device will assist you in positioning the ADAS calibration tool with exactness. Featuring a multifunctional base with 360-degree swivel wheels, it provides smooth and flexible movement, making adjustments during calibration both easy and stable.

- The Phoenix ADAS Mobile comes safely packaged in a Wooden Case (1415*1075*540mm/55.71*42.32*21.26inch, 136kg/230lbs).
